

Codio Activity – pytest

The following task involves experimenting with pytest using the Python programming language. Remember to save your work to your GitHub repository.

My work

In this exercise for my first run, instead of getting the correct output from the instruction, I got the error.

```
codio@lavamontana-doorsuper:~/workspace$ pytest -q test_wallet.py

===== ERRORS =====
----- ERROR collecting test_wallet.py -----
../.local/lib/python2.7/site-packages/_pytest/python.py:507: in _importtestmodul
e
    mod = self.fspath.pyimport(ensuresyspath=importmode)
../.local/lib/python2.7/site-packages/py/_path/local.py:704: in pyimport
    __import__(modname)
E   File "/home/codio/workspace/test_wallet.py", line 1
E       import pytest
E       ^
E   IndentationError: unexpected indent
!!!!!!!!!!!!!!!!!!!! Interrupted: 1 errors during collection !!!!!!!!!!!!!!!!!!!!!!!
1 error in 0.09 seconds
```

```
codio@lavamontana-doorsuper:~/workspace$ pytest -q test_wallet.py

===== ERRORS =====
----- ERROR collecting test_wallet.py -----
../.local/lib/python2.7/site-packages/_pytest/python.py:507: in _importtestmodul
e
    mod = self.fspath.pyimport(ensuresyspath=importmode)
../.local/lib/python2.7/site-packages/py/_path/local.py:704: in pyimport
    __import__(modname)
../.local/lib/python2.7/site-packages/_pytest/assertion/rewrite.py:304: in load_
module
    exec(co, mod.__dict__)
test_wallet.py:3: in <module>
    from wallet import Wallet, InsufficientAmount
E   File "/home/codio/workspace/wallet.py", line 14
E       def spend_cash(self, amount):
E       ^
E   IndentationError: unindent does not match any outer indentation level
!!!!!!!!!!!!!!!!!!!! Interrupted: 1 errors during collection !!!!!!!!!!!!!!!!!!!!!!!
1 error in 0.11 seconds
```

But I fixed the code to prevent the tests from failing, and finally I got the correct output.

```
codio@lavamontana-doorsuper:~/workspace$ pytest -q test_wallet.py
..... [100%]
5 passed in 0.01 seconds
codio@lavamontana-doorsuper:~/workspace$
```
